

Pediatric Critical Care Learning Sessions

# You Must Be Choking - A Case of Foreign Body Airway Obstruction

June 20 at 1 pm

## Learning Objectives:

- To develop an approach to airway management in a pediatric patient with partial airway obstruction.
- To discuss optimal ventilation strategies in an intubated pediatric patient with foreign body in the airway.
- To review diagnosis and management of complications resulting from mechanical ventilation in a pediatric patient with foreign body in the airway.

## - ABOUT THE PCCL SESSIONS -

**WHEN:** 3rd Friday of every month  
1:00 to 2:00 pm via Zoom

**WHAT:** A de-identified case presented  
by providers from a range of  
communities across BC

**HOW:** The PICU team at BCCH  
facilitate the interactive discussion
