Physician's Signature (mandatory)

Complex Developmental Behavioural Conditions (CDBC)
and BC Autism Assessment (BCAAN) Networks (March 2016)

The **CDBC Program** diagnostic assessment services are intended for children and youth who have significant difficulties in multiple areas of function including those with known or suspected history of exposures to substances with neurodevelopmental effects.

Referral from **pediatricians or child psychiatrists** is required (with exceptions based on access).

CDBC Referrals require a detailed consult. Please indicate if you have concerns about the following:

- Development, Cognition, and Learning** – developmental history and current concerns
- Adaptive and Social Skills** – self care, interpersonal skills, safety, etc.
- Mental Health and Behaviour** – regulation, attention, mood, etc.
- Bio Markers** – documented or substantiated evidence of exposure to environmental agents including alcohol. Dysmorphic features, suspected syndrome or observable abnormalities. Include face and growth measurements if available (FASD specific)

Additional Comments:

BCAAN provides diagnostic assessments for those with **suspected Autism Spectrum Disorder** and accepts referrals from **all physicians**.

Please indicate if you have concerns about the following:

- Mental Health/Behaviour Cognition/Developmental Delay Language

Please indicate your level of concern in each domain and provide examples of behaviours that support it:

<p>Social Communication</p> <p><input type="checkbox"/> Unknown/no concern</p> <p><input type="checkbox"/> Level 1 - noticeable impairments in social communication; difficulty initiating social interactions.</p> <p><input type="checkbox"/> Level 2 - moderate deficits in verbal and nonverbal social communication; limited initiation of social interactions; reduced response to social overtures.</p> <p><input type="checkbox"/> Level 3 - severe impairment in functioning; severe impairment in verbal and nonverbal social communication; difficulty initiating social connections; not responding to social overtures; inability to make friends; disconnected conversations.</p> <p>Examples: _____</p> <p>_____</p>	<p>Repetitive Behaviours</p> <p><input type="checkbox"/> Unknown/no concern</p> <p><input type="checkbox"/> Level 1 - noticeable inflexibility of behaviours cause significant interference with functioning.</p> <p><input type="checkbox"/> Level 2 - moderate inflexibility of behavior; difficulty coping with change; obvious repetitive behaviours cause impairment in functioning.</p> <p><input type="checkbox"/> Level 3 - severe inflexibility or repetitive behaviours cause significant functional issues; difficulty changing focus; extreme difficulty coping with change.</p> <p>Examples: _____</p> <p>_____</p>
--	---

Who is concerned about these behaviours? Guardian School Other professional (i.e. SLP, OT) _____

Attach copies of all documents that support this referral (i.e. school or daycare reports, speech and language reports, IDP reports).
