

CareConnect 6.5 coming April 5th, 2023

- New Feature!** – Open multiple documents for a single patient in separate tabs
- ENCOUNTERS** – Viewed History row shading
- COMMUNITY DOCUMENTS** – Column renaming
- DOCUMENTS** – Column renaming

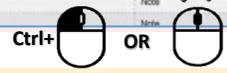

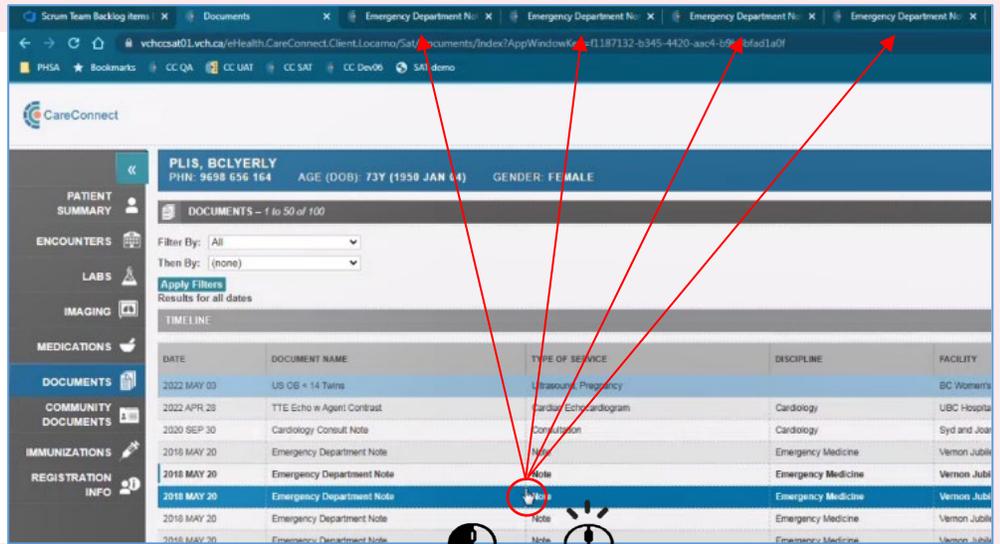

1

New feature! Open multiple documents for a single patient in separate tabs

New! You can now open multiple documents at one time for a single patient. Just 'ctrl + left mouse click' or 'middle mouse wheel click' on the documents you would like to open for the patient. Each document will appear in a new tab within the same browser for ease of reference.

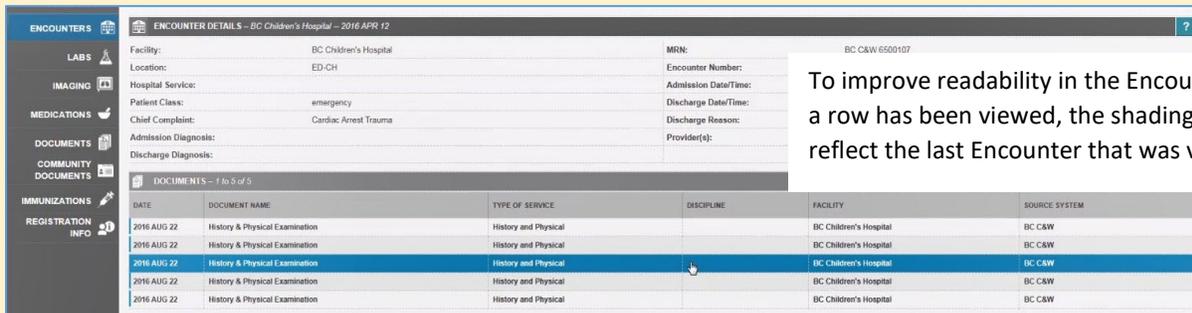

When a new patient is searched or CareConnect is closed, the opened document tabs automatically close themselves.

This new functionality has been applied to Documents, Community Documents, Labs, and Imaging reports.

2

ENCOUNTERS – Viewed History Row Shading

To improve readability in the Encounters tab, once a row has been viewed, the shading is updated to reflect the last Encounter that was viewed.

3

COMMUNITY DOCUMENTS – Column Renaming

To better reflect the information being displayed, some column titles have been renamed.

The screenshot shows two versions of the 'COMMUNITY DOCUMENTS' table. The left version has columns: LAST UPDATED, DOCUMENT TYPE, SOURCE SYSTEM. The right version has columns: LAST UPDATED, DOCUMENT NAME, SOURCE SYSTEM. Red arrows point from the 'DOCUMENT TYPE' column in the left view to the 'DOCUMENT NAME' column in the right view. A legend table below the screenshot shows the mapping: 'Old Name' is 'DOCUMENT TYPE' and 'New Name' is 'DOCUMENT NAME'.

Old Name	New Name
DOCUMENT TYPE	DOCUMENT NAME

DOCUMENTS – Column Renaming

To better reflect the information being displayed, some column titles have been renamed.

The screenshot shows two versions of the 'DOCUMENTS' table. The left version has columns: DATE, DOCUMENT TYPE, DISCIPLINE, TITLE, FACILITY, SOURCE. The right version has columns: DATE, DOCUMENT NAME, TYPE OF SERVICE, DISCIPLINE, FACILITY, SOURCE SYSTEM. Red arrows point from 'TITLE' in the left view to 'DOCUMENT NAME' in the right view, and from 'DOCUMENT TYPE' in the left view to 'TYPE OF SERVICE' in the right view. A legend table below the screenshot shows the mappings: 'Old Name' 'TITLE' maps to 'New Name' 'DOCUMENT NAME', and 'Old Name' 'DOCUMENT TYPE' maps to 'New Name' 'TYPE OF SERVICE'.

Old Name	New Name
TITLE	DOCUMENT NAME
DOCUMENT TYPE	TYPE OF SERVICE
