

CareConnect- Provincial eHealth Viewer

Consolidated View of Patient Data. Quicker Access. Improved Patient Care.
Provincial eHealth Record Viewer. Accessed Directly from your EMR or via ePortal.

Do you need increased access to patient information in order to provide more comprehensive and informed patient care? CareConnect (Provincial eHealth Viewer) is a province-wide electronic health record (EHR) that enables health care providers to access key patient information **all in one place**.

Offered and supported by the Provincial Health Services Authority (PHSA), CareConnect is a **secure, view-only** EHR that is available to all six health authorities and community-based provider groups.

	<h3>Quicker Access to Your Patient's Health History</h3> <p>Physicians can quickly review information such as visits, labs, imaging reports, immunizations and medications.</p>
	<h3>Less Time Spent on the Phone Tracking Down Reports and Results</h3> <p>A centralized view of health data reduces time spent on the phone by support staff or physicians requesting health information from patient's and other healthcare providers.</p>
	<h3>Avoid Ordering Unnecessary or Duplicate Labs Tests and Imaging</h3> <p>Readily access vital patient information and view previously completed lab tests and imaging to avoid duplication and make timely decisions to provide better patient care.</p>
	<h3>Identify other Clinician's Involved in Your Patient's Care</h3> <p>Through the registration information tab within CareConnect fellow clinicians can identify who else is providing care for a patient.</p>
	<h3>Information to Facilitate Referrals, Triage and Transfers of Care</h3> <p>CareConnect facilitates transfers from acute to longitudinal care, patient triage and developing care plans.</p>
	<h3>Enhanced Continuity of Care</h3> <p>Access to shared clinical information across care providers, programs and services in order to support ongoing health care management.</p>
