

Reappointment How to Guide:

Person / Non-PHSA Computer:

What version of Operating System do I have?

1 Are you using a Apple (Mac) or Windows based computer?

2

1. From the **Apple** menu (apple symbol), choose About This Mac. The version number appears beneath "macOS" or "OS X."
2. Click the version number to see the build number.

1. Click the **Start** button , enter **Computer** in the search box, right-click **Computer**, and then click **Properties**.
2. Look under **Windows edition** for the version and edition of Windows that your PC is running.
3. For more information, visit:

<https://support.microsoft.com/en-us/help/13443/windows-which-operating-system>

3

1. If your OS X version (aka macOS) is less than or equal to **10.8.5**, you will likely need to upgrade you Operating System (OS).

2. For assistance on upgrading, visit:

<http://www.apple.com/ca/macOS/how-to-upgrade/>

1. If your version of Windows is XP or older (Windows 98, Windows 95, etc) you may want to consider upgrading or using a computer with more recent version of Windows.
