

Pediatric Critical Care Learning Sessions

# Going Bananas

## - a complicated case of foreign body aspiration

April 17 at 1 PM.

### Learning Objectives:

- Review the acute management of a suspected foreign body aspiration in a child and explore how a pre-existing LRTI/ pneumonia would change your management.
- Identify effective strategies for sedation for a vigorous, intubated toddler with review of the indications for neuromuscular blockers.
- Discuss the management of pulmonary hemorrhage in the context of foreign body aspiration.

### - ABOUT THE PCCL SESSIONS -

**WHEN:** 3rd Friday of every month  
1:00 to 2:00 pm via Zoom

**WHAT:** A de-identified case presented by providers from a range of communities across BC

**HOW:** The PICU team at BCCH facilitate the interactive discussion
