Labs Domain: Cumulative View Background Loading Support

The screenshot displays the CareConnect interface for the Labs Domain. At the top, the CareConnect logo is on the left, and the user is logged in. A search bar is set to 'PHN' with a 'GO' button. The main header shows patient information: PHN, AGE (DOB), and GENDER. Below this is an 'ALERTS' section with a 'What's Available' button. The 'REPORTED ALERTS' table lists two entries:

LAST RECEIVED DATE	REPORTED ALERT	CATEGORY	SOURCE SYSTEM
2019 MAR 27	Carbapenemase-Producing Organisms	Carbapenemase-producing Organisms	VA-RHS Carecast
2018 SEP 11	Carbapenemase-Producing Organisms	Carbapenemase-producing Organisms	PHC SCM

A blue callout box with a white background and a blue border contains the text: "Users can keep working in other areas of CareConnect and will be notified when the cumulative view results are ready." A blue arrow points from this box to a green notification bar at the bottom of the screen. The notification bar contains the text: "Cumulative / trending lab results have finished loading and are available in the lab domain." with a close button (X). At the bottom right, there are links for "About CareConnect", "Privacy & Security", and "Contact Us".
