

Pediatric Critical Care Learning Sessions

# A Floppy Baby: Acute Onset Hypotonia in an Infant

January 16 at 1pm

## Learning Objectives:

- **Develop a structured differential diagnosis for an acutely hypotonic infant.**
- **Identify key intensive care considerations in the stabilization and ongoing management of infants with neurological impairment.**
- **Evaluate indications for transferring a neurologically impaired or hypotonic infant to a higher level of care.**

**- ABOUT THE PCCL SESSIONS -**

**WHEN:** 3rd Friday of every month  
1:00 to 2:00 pm via Zoom

**WHAT:** A de-identified case presented  
by providers from a range of  
communities across BC

**HOW:** The PICU team at BCCH will  
facilitate the interactive discussion
