

Pediatric Critical Care Learning Sessions

A Whole Clot of Trouble

October 17 at 1pm

Learning Objectives:

- Describe the epidemiology and risk factors for pulmonary embolism (PE) in adolescents, considering mental health comorbidities.
- Outline the initial stabilization and safe transport of adolescents with suspected or confirmed PE, while recognizing challenges posed by resource-limited settings.
- Discuss strategies for long-term management and secondary prevention of PE, including anticoagulation duration, contraceptive counseling, and follow-up care.

- ABOUT THE PCCL SESSIONS -

WHEN: 3rd Friday of every month
1:00 to 2:00 pm via Zoom

WHAT: A de-identified case presented by providers from a range of communities across BC

HOW: The PICU team at BCCH will facilitate the interactive discussion
