BULLETIN

New Provincial Special Coagulation Requisition – Hereditary Thrombophilia Testing (HTT) Effective September 30, 2026

The Provincial Hematopathology Advisory Committee, in collaboration with the Provincial Thrombophilia Working Group has introduced a standardized provincial requisition for requesting Hereditary Thrombophilia Testing across BC.

The requisition is available for download on the [Requisitions Page](#) of the PLMS website.

Please implement the HTT requisition wherever operationally needed.

Clinicians may request changes to the standard requisition by completing and submitting a [Change Request Application Form](#). The Provincial Hematopathology Advisory Committee will review and evaluate the requests against the established criteria and notify applicants of the outcome. Approved changes will be incorporated during the next revision cycle. Please submit change request application forms to requisitions@phsa.ca.

Questions about the new Special Coagulation Requisition – Hereditary Thrombophilia Testing (HTT) can be emailed to requisitions@phsa.ca
