

Surgical Patient Registry (SPR) v5.7

Health Authority Administrator Access instructions

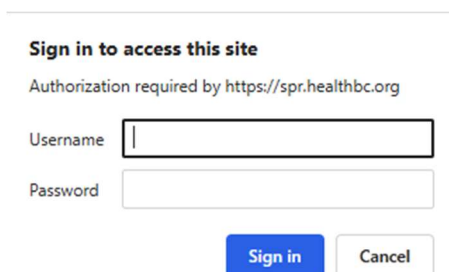

***October 30, 2025
Version 1.4***

How to Access SPR Data

1. Complete the SPR request access form found on the SPR health professionals website. <https://www.phsa.ca/health-professionals/professional-resources/bc-surgical-patient-registry>
2. Submit completed form to your health authority SPR administrator:

Health Authority	HA SPR Administrator	E-mail
<i>Interior Health</i>	Natalie Nielsen	Natalie.Nielsen@interiorhealth.ca
<i>Fraser Health</i>	Ghalib Rajan	Ghalib.Rajan@fraserhealth.ca
<i>VCH/Providence Health Care</i>	Diana VillalbaLeal	Diana.VillalbaLeal@vch.ca
<i>Island Health</i>	Leonard Chan	Leonard.Chan@islandhealth.ca
<i>Northern Health</i>	Amy Bergenham	Amy.Bergenham@northernhealth.ca
<i>PHSA (C&W)</i>	Henry Cho	Henry.Cho@phsa.ca
<i>PHSA (BCCA)</i>	Vince Chow	Vince.Chow@bccancer.bc.ca

3. The health authority SPR Administrator will submit your completed Request form to SPR Central Office. SPR Central Office will assign your SPR access and e-mail you when complete.
4. Log into your health authority/hospital intranet with your usual health authority username and password.
5. Enter this URL into your work station web browser:
<https://spr.healthbc.org/SPR/Shared/AcceptPolicy.aspx>
6. Enter your HA Domain\UserName (ie: SFHR\janedoe) and your HA system/Windows password.

BC Surgical Patient Registry Data Analytics

Who We Are & Who We Serve

BC Surgical Patient Registry (SPR) data platform is a cloud-based solution delivering comprehensive, integrated provincial data for reporting and analysis on surgery and GI Endoscopy in BC. This platform includes various querying, reporting and analysis components. It is managed and supported provincially providing secure access to a unified SPR database. This service is delivered to surgical health providers and programs, allowing surgical and GI Endoscopy case information to be shared, where authorized and needed.

SPROffice [PHSA]

What We Do

The SPR data platform uses sophisticated software tools to perform in-depth analysis and create specialized reports and dashboards for different stakeholder groups. The goal of this reporting system is to provide the BC Health Authorities, the BC Ministry of Health, surgeons, and provincial programs with the appropriate data to facilitate development of province-wide standardized measures and wait time management for GI Endoscopy and surgical performance.

Troubleshooting Checklist

If you are experiencing difficulties accessing the SPR, review the checklist below:

- ✓ You have entered the correct URL into the web browser.
- ✓ You are working from a secure workstation within your health authority.
- ✓ If working from your office, you are required to use a VPN issued by your HA IMITS / Service Desk.
- ✓ You are entering the correct HA Domain\UserName and your HA password.

If you still cannot access the SPR, please contact the SPR Central Office at SPROffice@phsa.ca or 250-519-5702 for assistance.
